AMERICAN STAINLESS
PUMP CARTS & PACKAGES

Pump Carts

Boerger Pumps - the ULTIMATE must pump. Move your must with ease. The Boerger Pump does it. Simple "Maintenance in Place" and long life make this a great pump for your winery. Sizes up to 6" and 500gpm.

Waukesha pump carts. Both Centrifugal and Positive Displacement available. Solid and dependable. A work horse for your portable pump application.

CleanGear® sanitary gear pumps are designed to provide low cost, high performance metering of sanitary and non-sanitary products wherever compatibility, repeatability, and durability are required.

Spargers

Our spargers are designed to protect your investment in spargers and provide excellent performance.

- Bevel Seat, PCT or Tri-Clamp, I-Line, Hose Barb or Tubing connections.
- FDA approved materials
- 2", 3", 4" and 6" tube OD sizes

Irrigators

The specially designed, patented rotary joint in our **Wine Irrigators** is the "heart" of the system. Providing smooth and easy rotating of the device, allowing wine to pass through the bearings for lubrication, while simultaneously keeping the seeds out so it doesn't get jammed.

- Designed to gently handle your valuable wine asset during pump overs.
- Bevel Seat, PCT or Tri-Clamp, I-Line, Hose Barb or Tubing connections.
- Delrin ball bearings in Rotary device
- FDA approved materials
- 2", 3", 4" and 6" tube OD sizes
